Chemical management solution

Easily comply with chemical regulations, including generating InCheck reports.

Benefits to you

> **Ease of use**
Bulk upload your chemical inventory quickly by SDS drag-and-drop or Excel template.

> **Greater compliance**
Quickly identify chemicals linked to ZDHC MRSL and other certifications using interactive dashboards.

> **Time-saving InCheck Conformance**
Preview your score so you can make improvements before generating ZDHC InCheck reports.

> **Link your account**
Seamlessly to your ZDHC Gateway account.

> **Visibility**
Connect and share your data with your customers for greater transparency and progress tracking.

> **Understanding**
Multilingual in-time support and training available.

> **Better value**
Access your wastewater data and upload or transfer ZDHC wastewater lab reports, free of charge.

> **Wastewater Testing**
UL Solutions laboratories perform wastewater analysis to verify the presence of hazardous chemicals that can be discharged.

Key features

Performance benchmarking and conformance reporting

Linked to third-party standards
i.e. ZDHC Gateway, Chemical score–Scivera & ToxServices

Customer linking to seamlessly share data

Bulk upload Multilingual Safety Data Sheets

Multiple data entry processes, including system integration

One system for all your inventory

Analyze wastewater and sludge according to ZDHC Wastewater Guidelines.

Submit data to ZDHC Gateway – Wastewater Module for suppliers, ensuring transparency and compliance.
