

Onboard and Engaging Suppliers

The Challenge

Effectively mapping and managing your supply chain is essential for business success. We understand that connecting with each supplier is a complex task that demands expertise, time, and resources. Engaging with suppliers beyond tier one is particularly challenging but crucial, as the most significant ethical risks often reside deeper within the supply chain.

The Solution

- ▶ **Comprehensive Supplier Engagement:** CleanChain engages with your suppliers through multiple channels, including emails, phone calls, and WeChat, ensuring consistent and effective communication.
- ▶ **Professional Communication Collateral:** CleanChain provides all necessary communication materials, tailored to facilitate supplier engagement and collaboration.
- ▶ **Bi-weekly Supplier Engagement Reports:** Receive regular bi-weekly reports on supplier engagement activities, keeping you informed of progress and issues.
- ▶ **Multilingual Support:** Communicate with suppliers around the world seamlessly with CleanChain's multilingual support.

Supply Chain Management Features

Tier Mapping: Organize and manage your suppliers more effectively with tier mapping, allowing for strategic sourcing and resource allocation.

Custom Fields and Attributes: Customize your CleanChain experience with fields and attributes that suit your specific needs.

Optional Custom Reporting: Generate detailed, customized reports that meet your unique requirements with CleanChain's optional custom reporting feature.

Optional API Integration: Enhance functionality and data synchronization by integrating CleanChain with other platforms and data sources via API.

Streamlined Reporting: Simplify and expedite your reporting processes, saving time and increasing efficiency across your supply chain operations.

No-Cost Wastewater Data Sharing: Enable suppliers to share wastewater data with your brand at no extra cost, promoting transparency and sustainability.

Brand to Zero Reporting: Achieve your sustainability goals with comprehensive Brand to Zero reporting, helping you track progress and compliance effectively.
